Annotation
Happens Anywhere

Annotate on any content on the screen, including office files, webpages, pictures, videos, and applications. Allow the annotations tracking with no interference in different objects.

Take Your Meeting Away

All the meeting content on the whiteboard can be recorded. Export the meeting recap and scan the QR code to take away. No more paper handouts, meeting notes or personnel records needed.
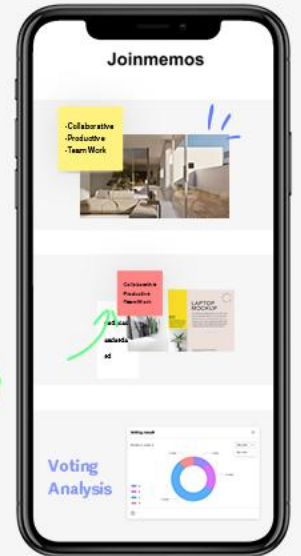

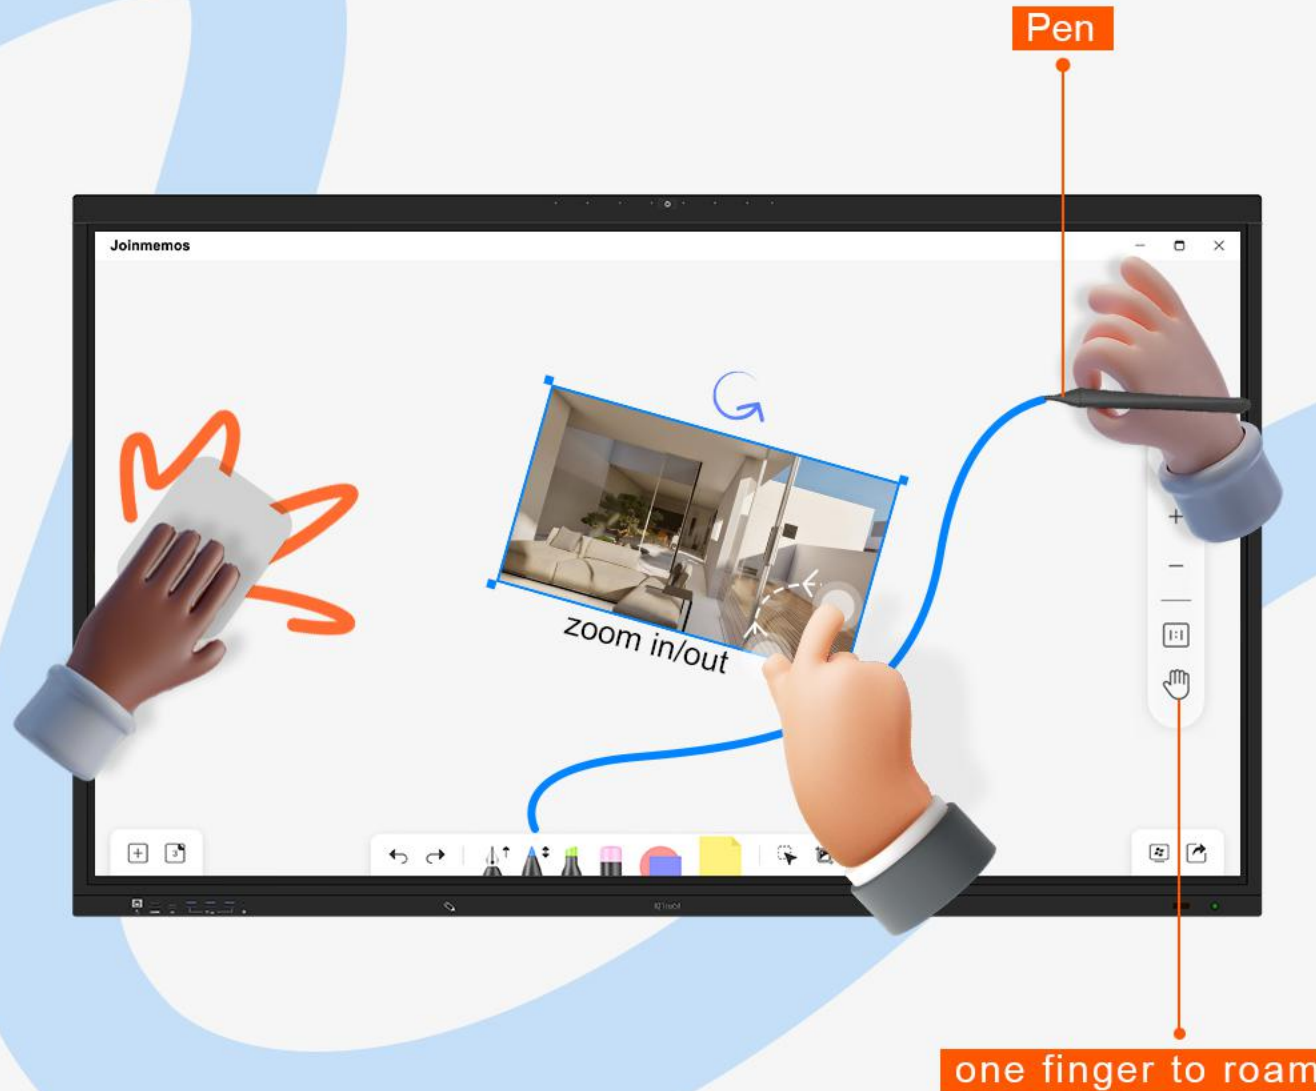

Hand–Pen Separation Mode

Advanced object recognition algorithm enables hand and pen free from switching tools.

- ✓ Pen tip recognition for writing and drawing.
- ✓ Hand gesture recognition with one finger to roam, two fingers to rotate, zoom in/out, and full palm to erase.
