

IQ KitsMemos V1.2 Interactive Display Software

Interactivity Never Gets Old

More teaching resources and subject tools now available

IQ KitsMemos V1.2

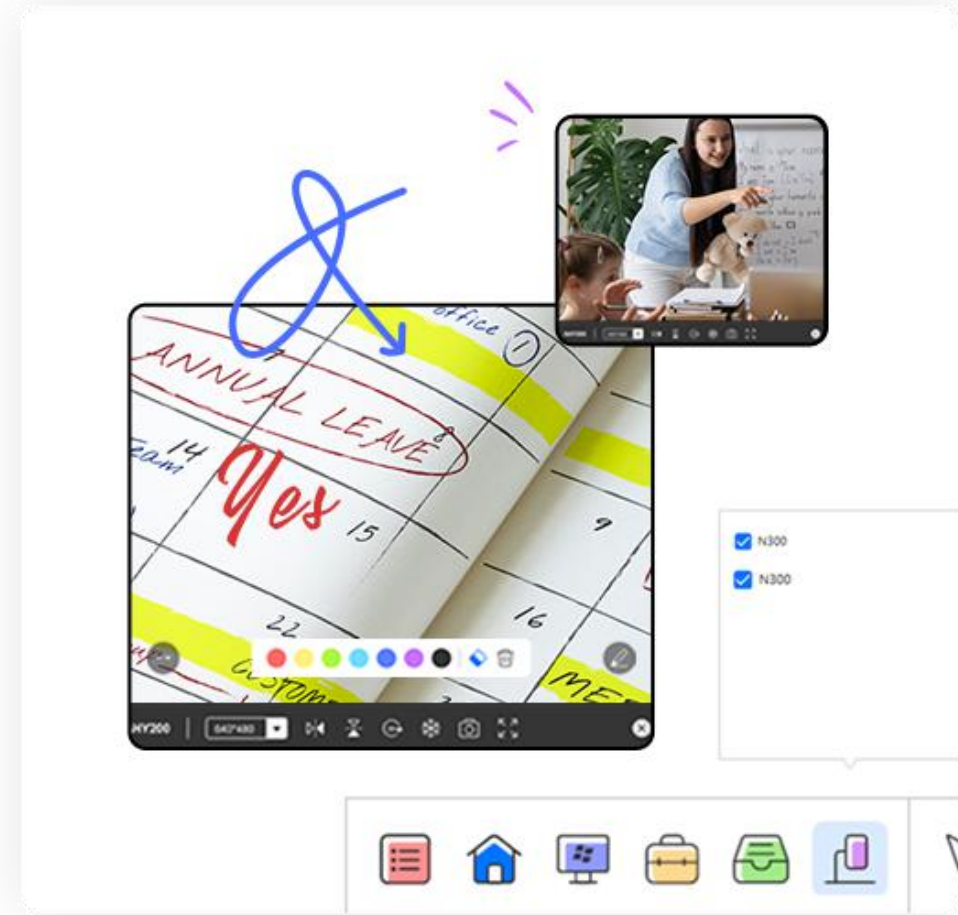

Engage students with fun activities

IQ KitsMemos, an interactive display software or interactive video wall software from IQBoard, provides various class activity templates for teachers to create interactive games by the interactive whiteboard and interactive flat panel. Teaching can be transformed from traditional teacher-centered lecture to student-centered engagement, making the class interaction full of fun and greatly stimulating students' interest.

IQ KitsMemos V1.2

Embedded document camera function

IQ KitsMemos, the touch screen whiteboard software, supports up to 4 document camera images displayed at one time, so that the teacher can present multiple students' homework to the whole class for comparative teaching. The images can be rotated, flipped, erased or marked with annotation. Besides, the teacher can use the whiteboard writing meanwhile activate the document camera function to annotate, improving teaching efficiency with smooth class flow.

IQ KitsMemos V1.2

4k intuitive UI design

The overall educational style along with a large number of high-definition icons displayed under 4K resolution ensures every detail to be clearly presented. The childlike interface catches students' eyes and arouses their interest to make them more engaged during the class.

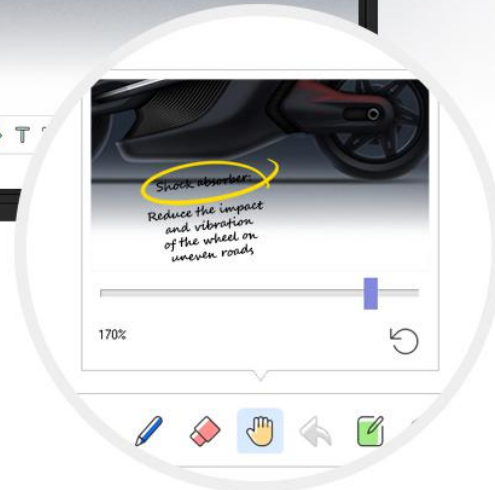

IQ KitsMemos V1.2

Ultimate writing experience with no delay

The writing experience is almost the same as that of Microsoft Whiteboard.

Users can feel the unprecedented writing speed and smoothness with no delay, letting thoughts flow freely without hindrance and fully present on the whiteboard.

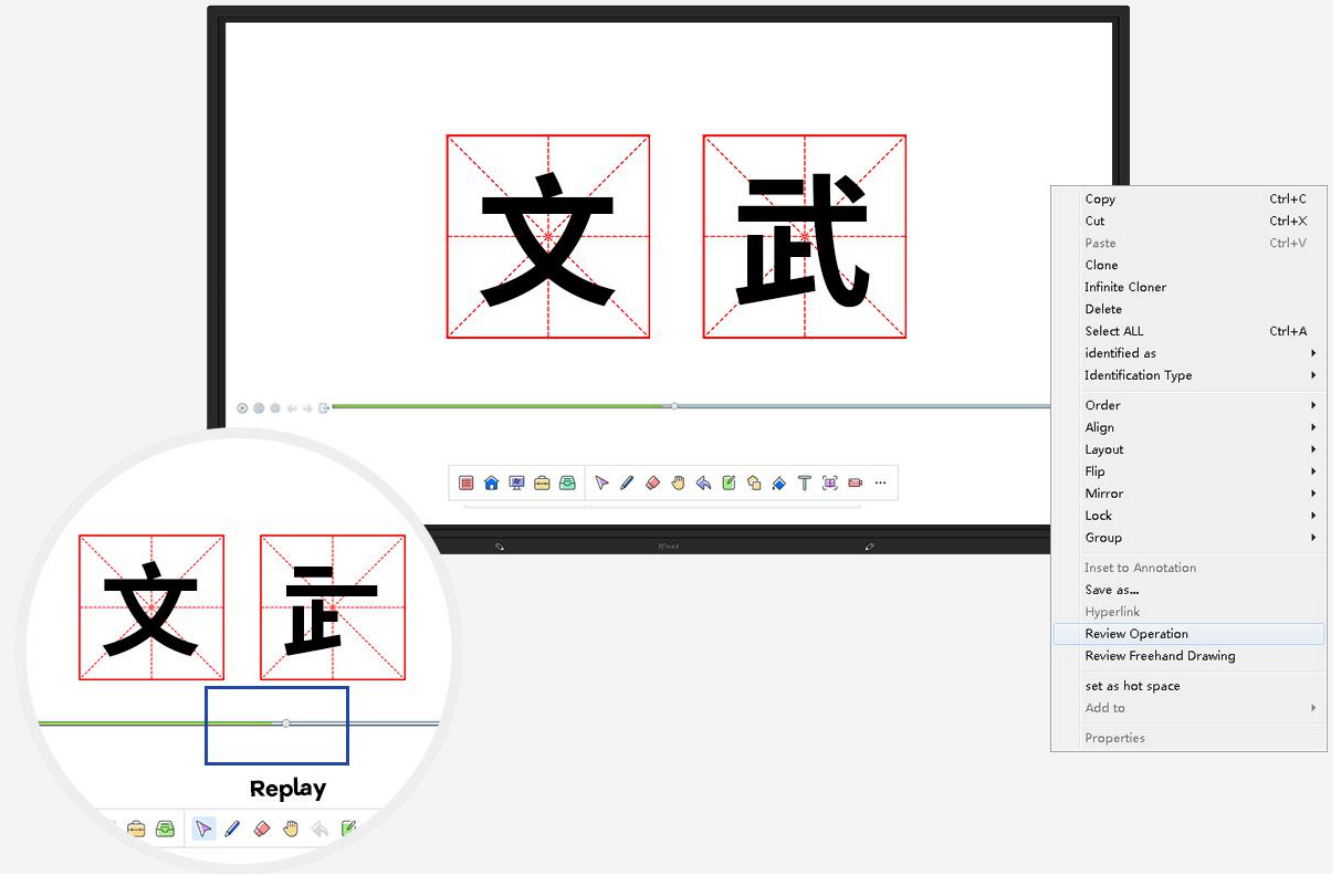

Page roaming for unlimited presentation

Freely zoom in or out the page and enjoy unlimited roaming, never get your thoughts interrupted. Support one-click roaming back to the original position, keeping your presentation smooth from the beginning.

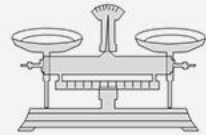

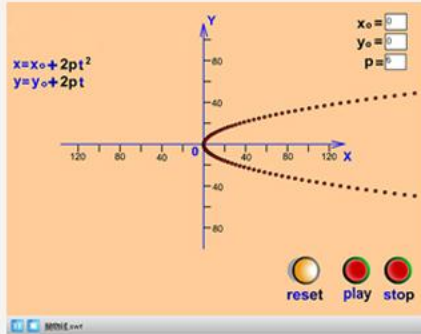

IQ KitsMemos V1.2

Keep track of each writing detail

The playback feature of Kitsmemos helps the teacher repeat the trail of his writing automatically, each writing or drawing object can be played back like animation for students to watch clearly, especially convenient for teaching language characters.

IQ KitsMemos V1.2

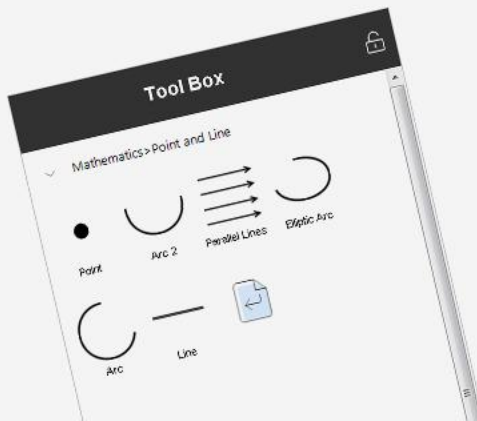

physics

Abundant resources and subject tools

According to the subject you choose, related subject tools such as graphs of mathematical functions, the periodic table of chemical elements and atomic structures will automatically be presented on the toolbar of interactive display software for handy use. A free resource library is available with 14,000+ vector graphics, animation videos, mini games, etc., to help teachers easily make teaching courseware.

IQ KitsMemos V1.2

Intelligent hand gesture recognition

IQ Interactive Education Platform makes your presentation more efficient through hand gesture recognition, by simply using two fingers to zoom in/out or rotate, full palm to erase.

passages of lorem ipsum available, but the majority have suffered alteration in some by injected humour randomized

IQ KitsMemos V1.2

Cloud platform access to enrich resources

Support OneDrive, Dropbox and Google Drive access. Drag the pictures or audio and video files from your personal cloud to IQ Interactive Education Platform. Provide with a variety of ways to enrich your teaching or presentation resources.

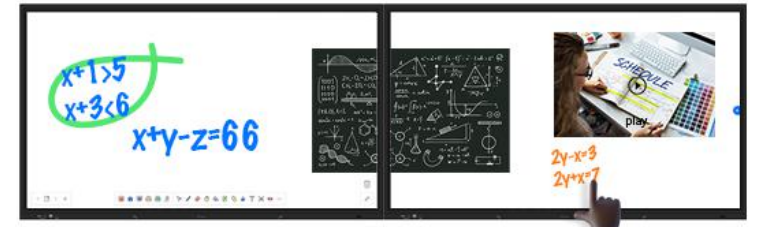

IQ KitsMemos V1.2

Dual Display Solution

(1) A=B

Write on screen A while screen B shows the same image synchronously.

(2) A+B

Screen A extends the page to screen B for larger space presentation.

(3) A/B

Screen A is for whiteboard writing while screen B can be used for displaying document camera image.

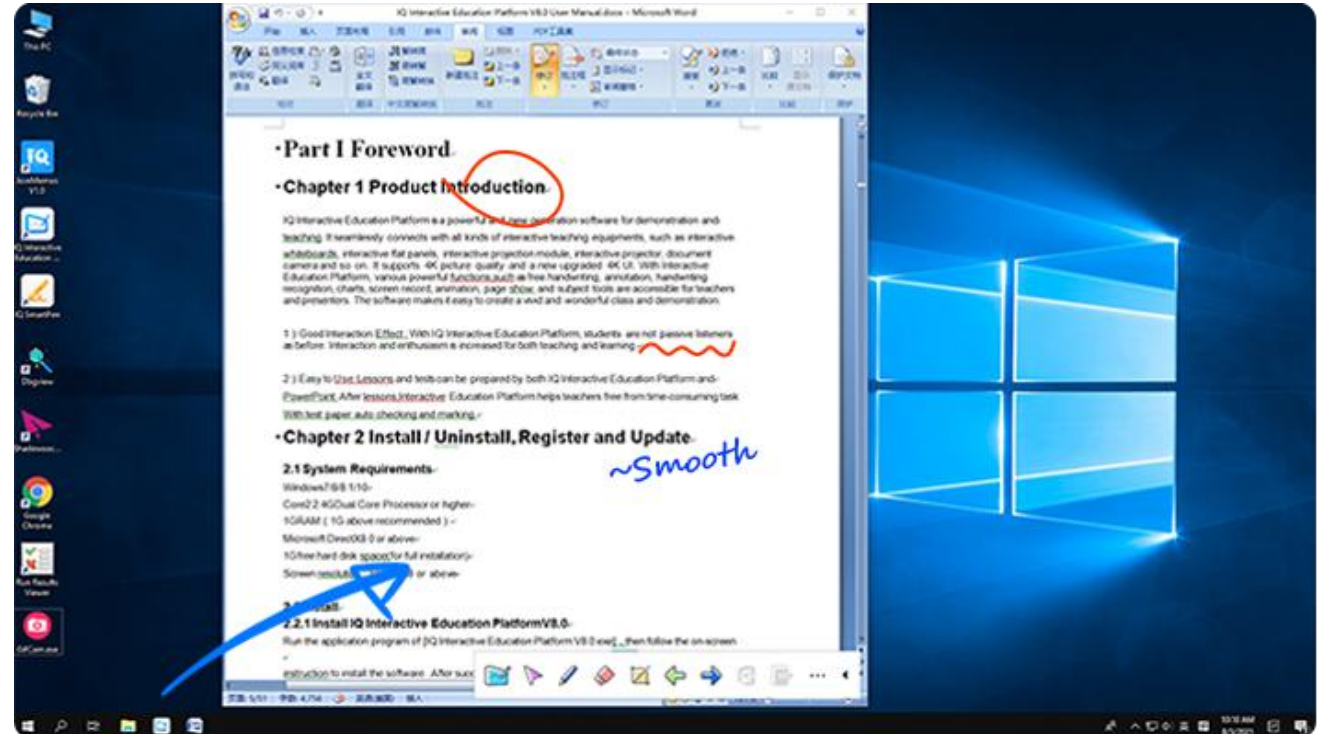

(4) Split screen

Two different pages of the courseware can be displayed at the same time on two screens.

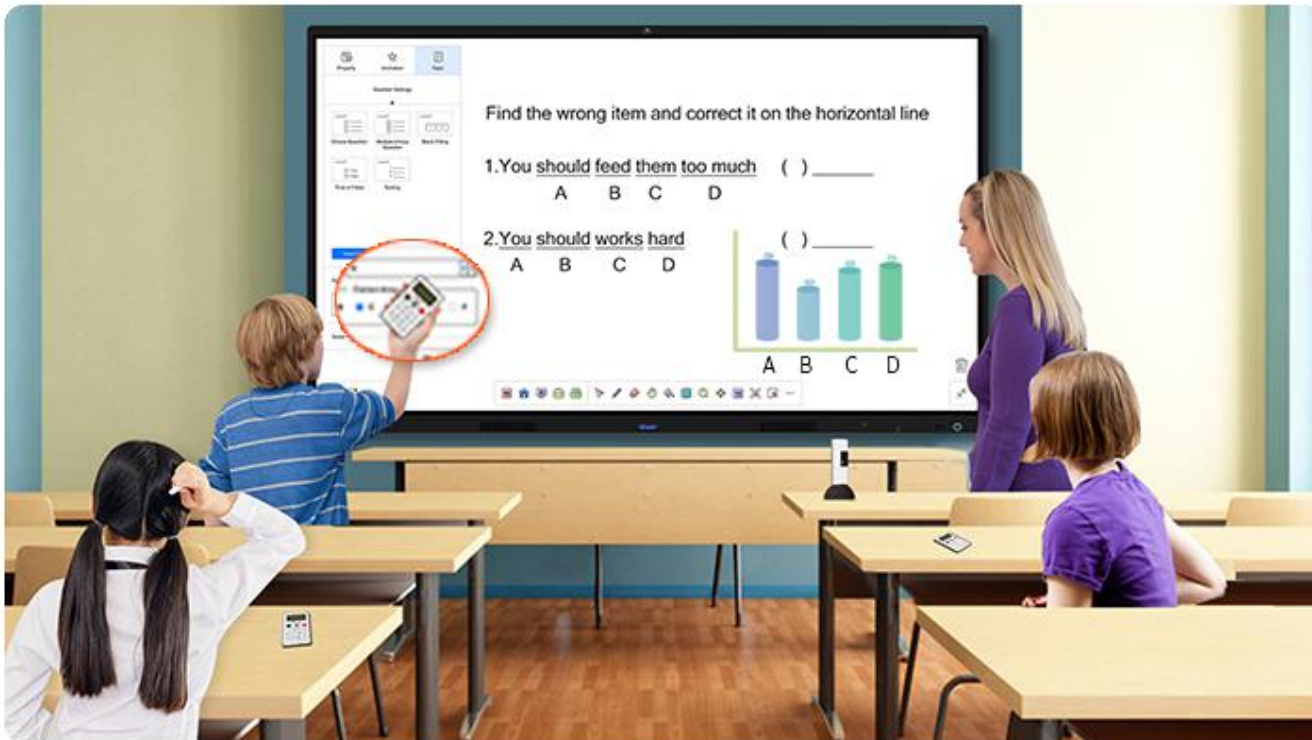

IQ KitsMemos V1.2

Desktop mode to extend class presentation

Enter desktop mode to exit the drawing board of IQ Interactive Education Platform and return to your computer desktop. Now all the programs and materials on the desktop could be part of your presentation with smooth operation. Open a Word, PowerPoint or Excel file to further annotate, erase, screenshot or save the annotation in the file, the toolbar is always there for your handy use.

IQ KitsMemos V1.2

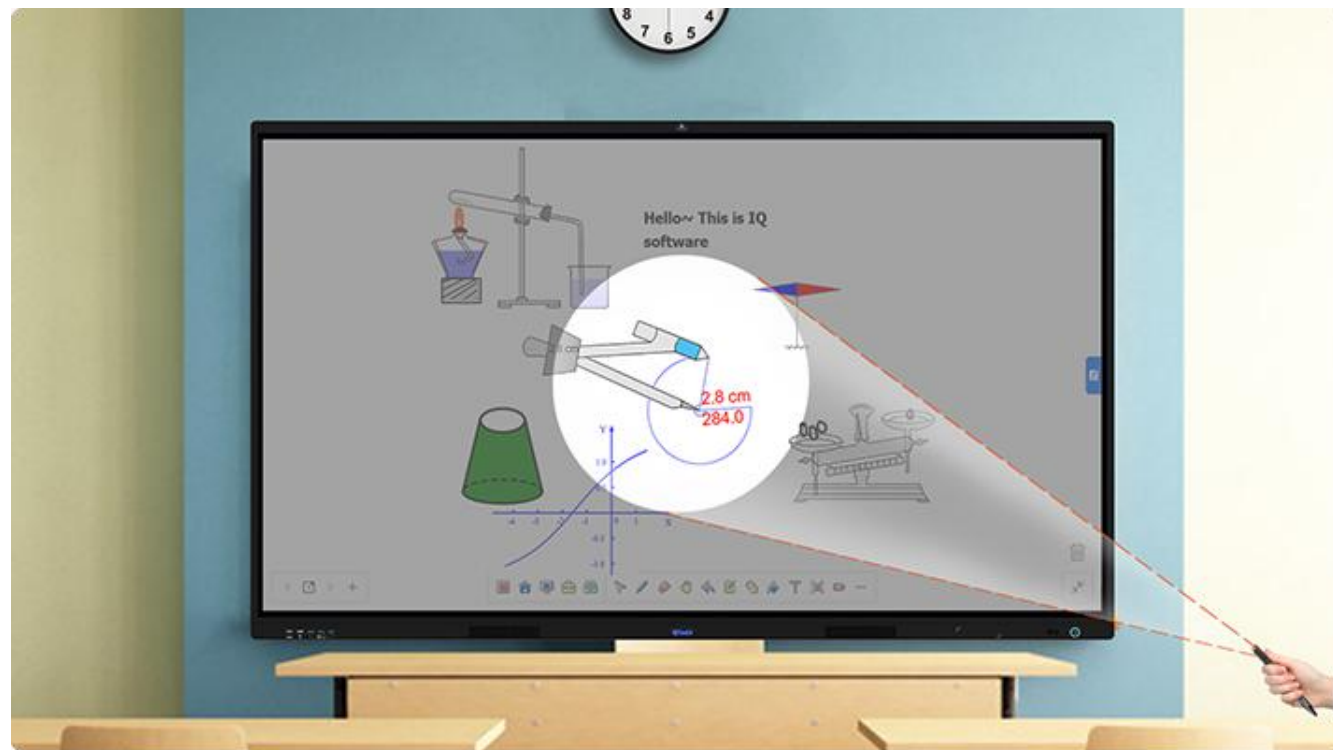

Integrated interactive response system

Engage students with activities like instant quiz: set different questions, give answers and create answer report with IQClick Interactive response system. Create an interactive learning environment where every student can participate actively and give real-time feedback.

IQ KitsMemos V1.2

Seamlessly work with IQ Smartpen

IQ Interactive Education Platform supports automatically matching the functions of IQ Smartpen, just one click to achieve several basic operations. Wireless design enables you walking around the classroom without interrupting as long as one smart pen in hand. No matter where you stand, you still can have your own perfect presentation.

IQ KitsMemos V1.2

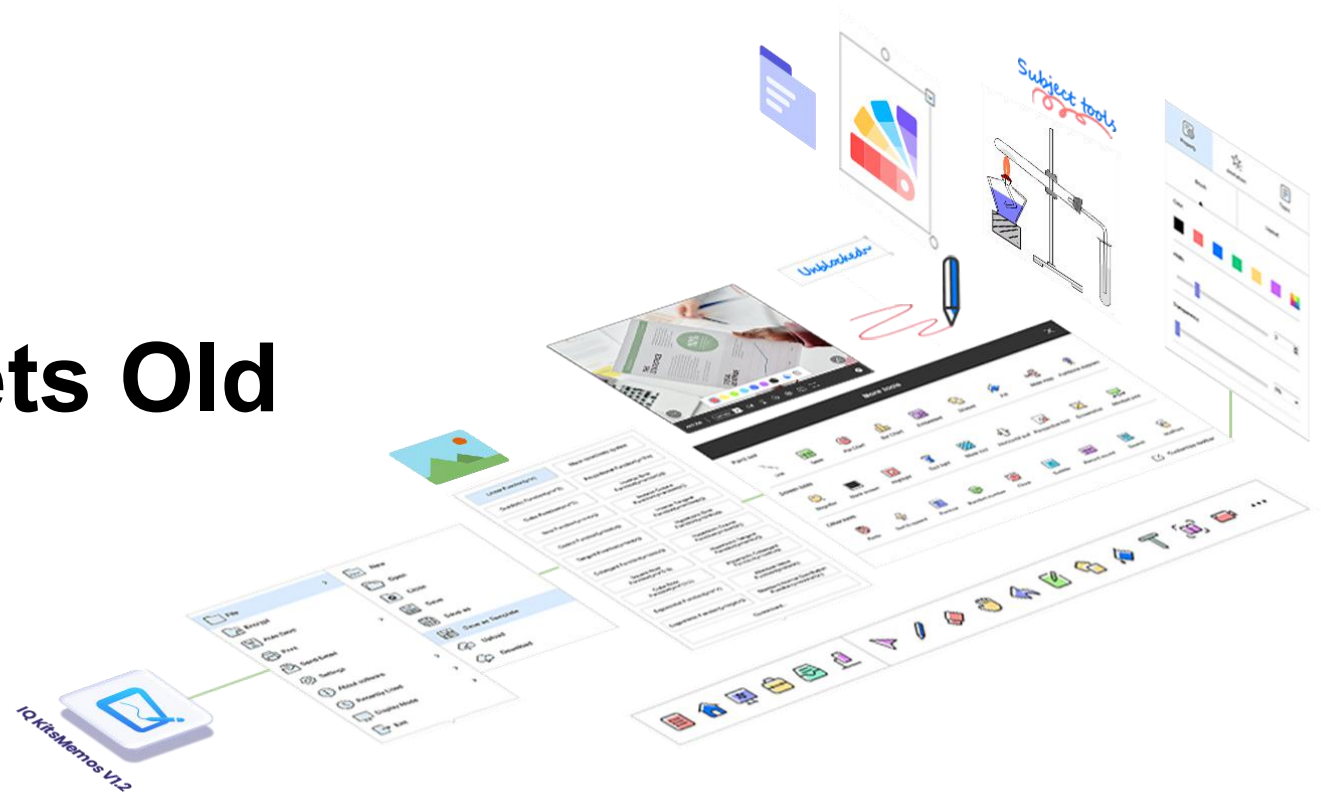

Multi-language Support

IQ Kitsmemos includes different versions such as English, Chinese, Spanish, Arabic, Thai, Vietnamese, Russian and other 30+ languages for your choice. Language customization is also available.
