Powerful Inside Performance

IQTouch TB1100 Pro adopts the updated Android 11.0 version with 4K intuitive interface and 8G RAM+128G ROM ensures extremely stable and powerful system. Smoothly run and switch among multiple applications, greatly improve the efficiency of a meeting room.

8G RAM
128G ROM

Android 11.0

Advanced Audiovisual Performance

● 4K AI Camera

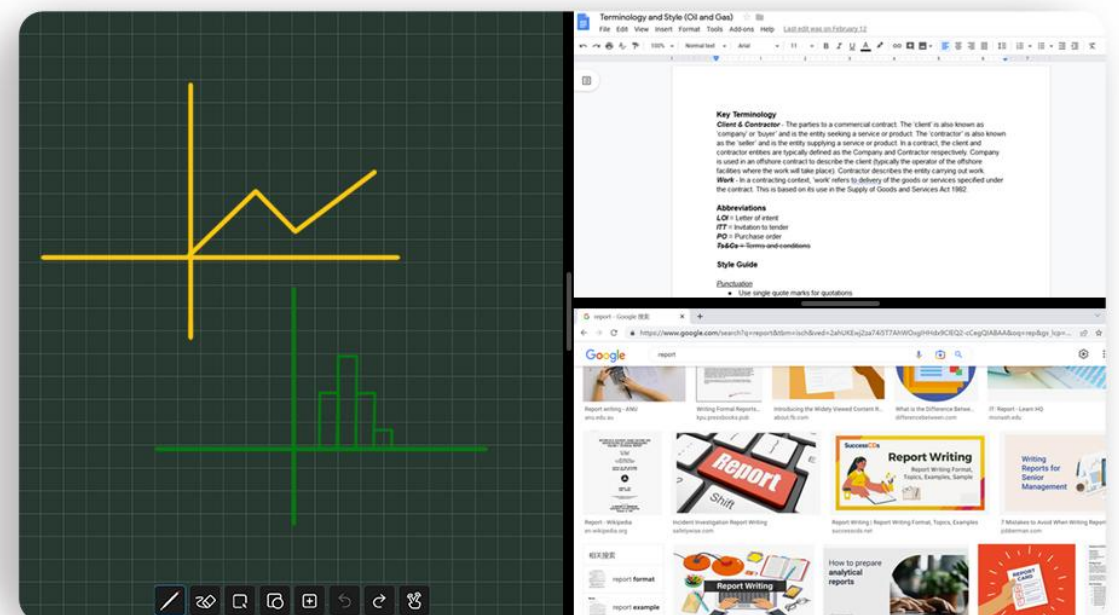

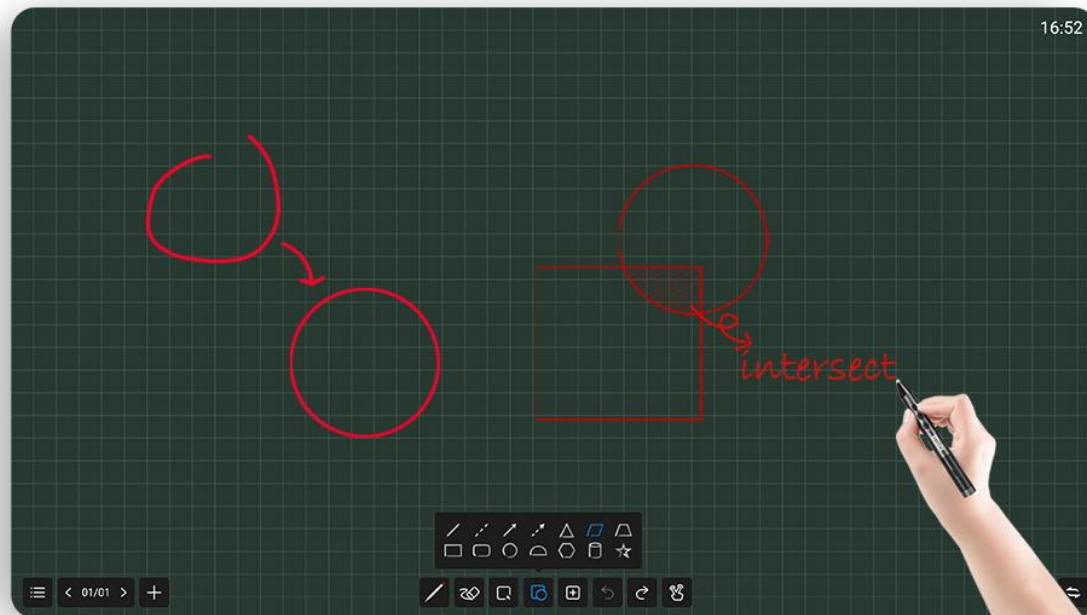

Built in 4K AI Camera with voice tracking and auto framing, precisely positioning and automatically switching focus between the different speakers in video conference.

● 8 Array Mic

Seamlessly integrating 8 microphone arrays embrace Acoustic Echo Cancellation (AEC) technology and support the ideal voice pickup range of up to 6 meters.

Write “Infinity” on AI Whiteboard

IQTouch TB1100 Pro brings you the built-in 4K AI whiteboard with endless possibility. More intelligent functions like handwriting, shape recognition, split screen mode and smart table are offered to improve the presentation in every way.

High Speed Network

Dual-Band / WiFi 6E / Up to 1000M LAN

Dual-band WiFi module design makes it possible to simultaneously access the Internet and realize screen casting without interference. Empowered WiFi 6E and 1000M LAN to guarantee ultra-high network speed. Online 4K video can be played smoothly without latency.

4K BYOD and BYOM

The amazing screen sharing tool. As a natural extension of BYOD, BYOM allows you to wirelessly access the camera and microphone of TB1100 Pro and start the video conference with your preferred UC platform.

Share multiple mobile devices to the large screen with up to 9-split screen.

Allow the remote colleagues to cast their personal files by web browser.

Group share the same content to multiple displays in one meeting room.

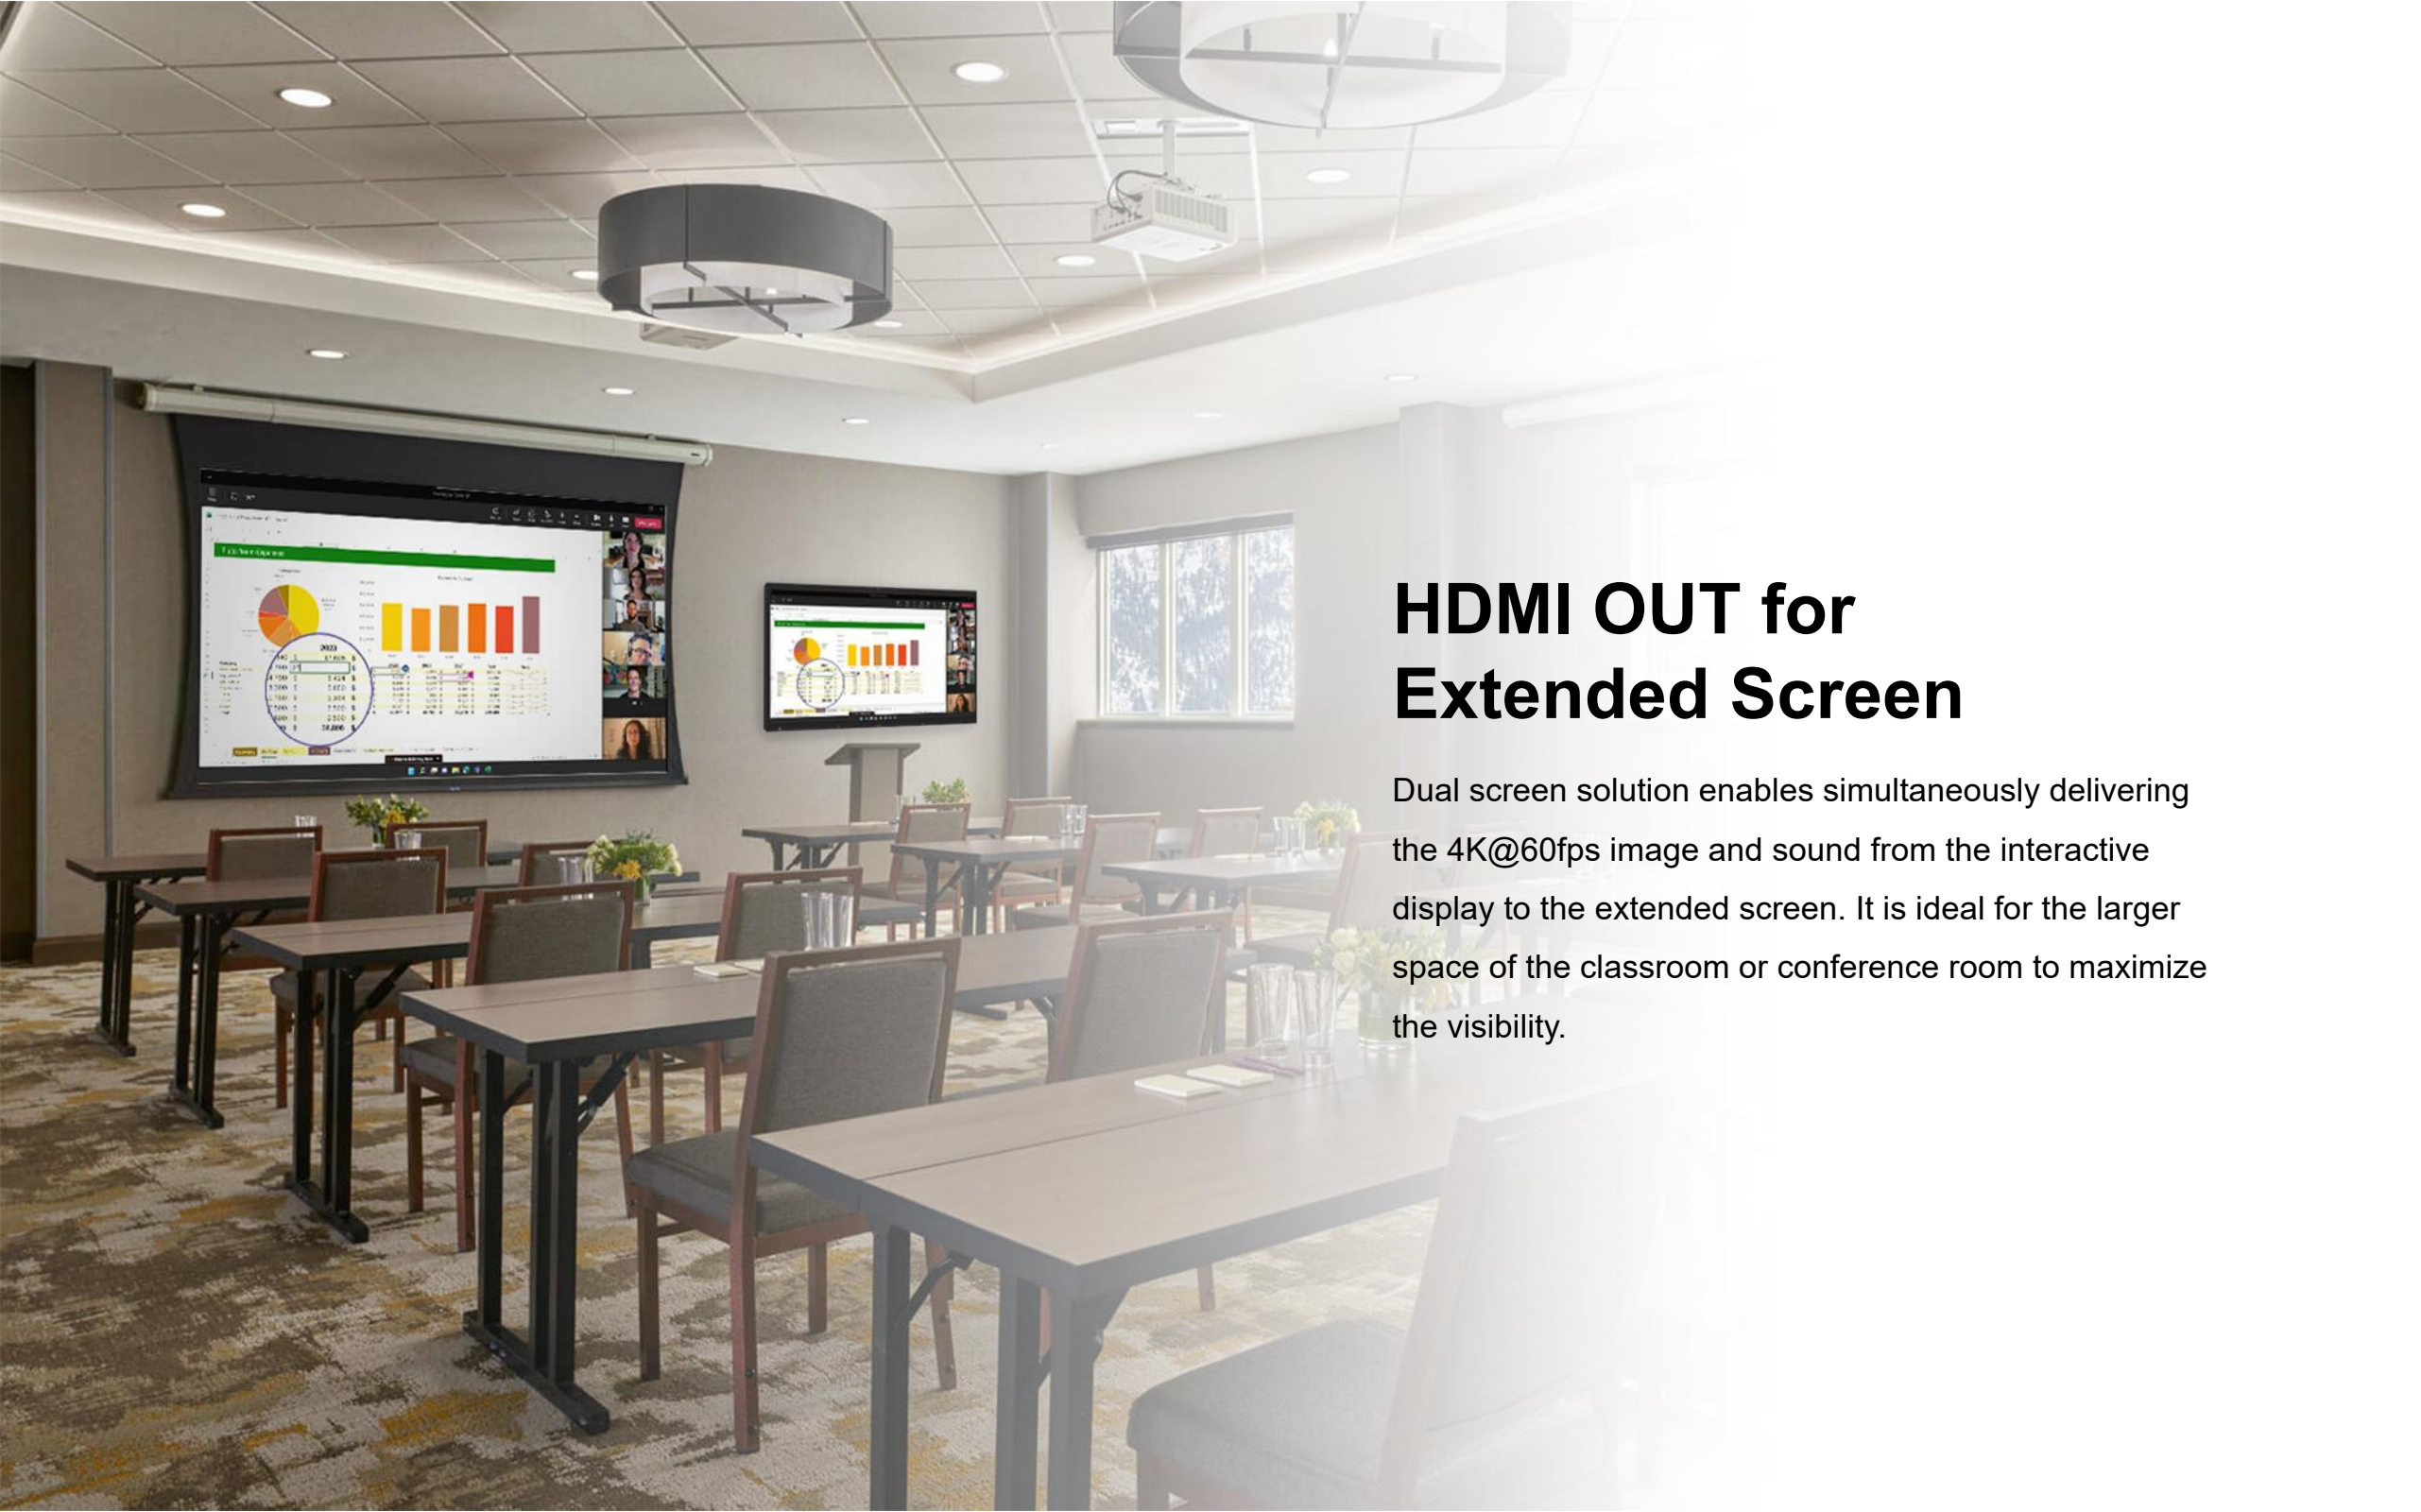

Multi-Window, Multi-Tasking

Free from the inconvenience of applications switching. Easily operate multiple tasks on flexible windows with 2 or 4 split screens at the same time, increasing the utilization of a large screen, and greatly improving the meeting productivity.

Full Function Plug&Play USB-C

A single cable solution for interactive touch panel realizes two-way touch control, LAN share, 15W fast charging, audio and 4K@60fps video transmission with the interactive display. Compatible with multiple mobile devices such as laptops, tablets, and smartphones, instantly start your presentation in a stress-free way.

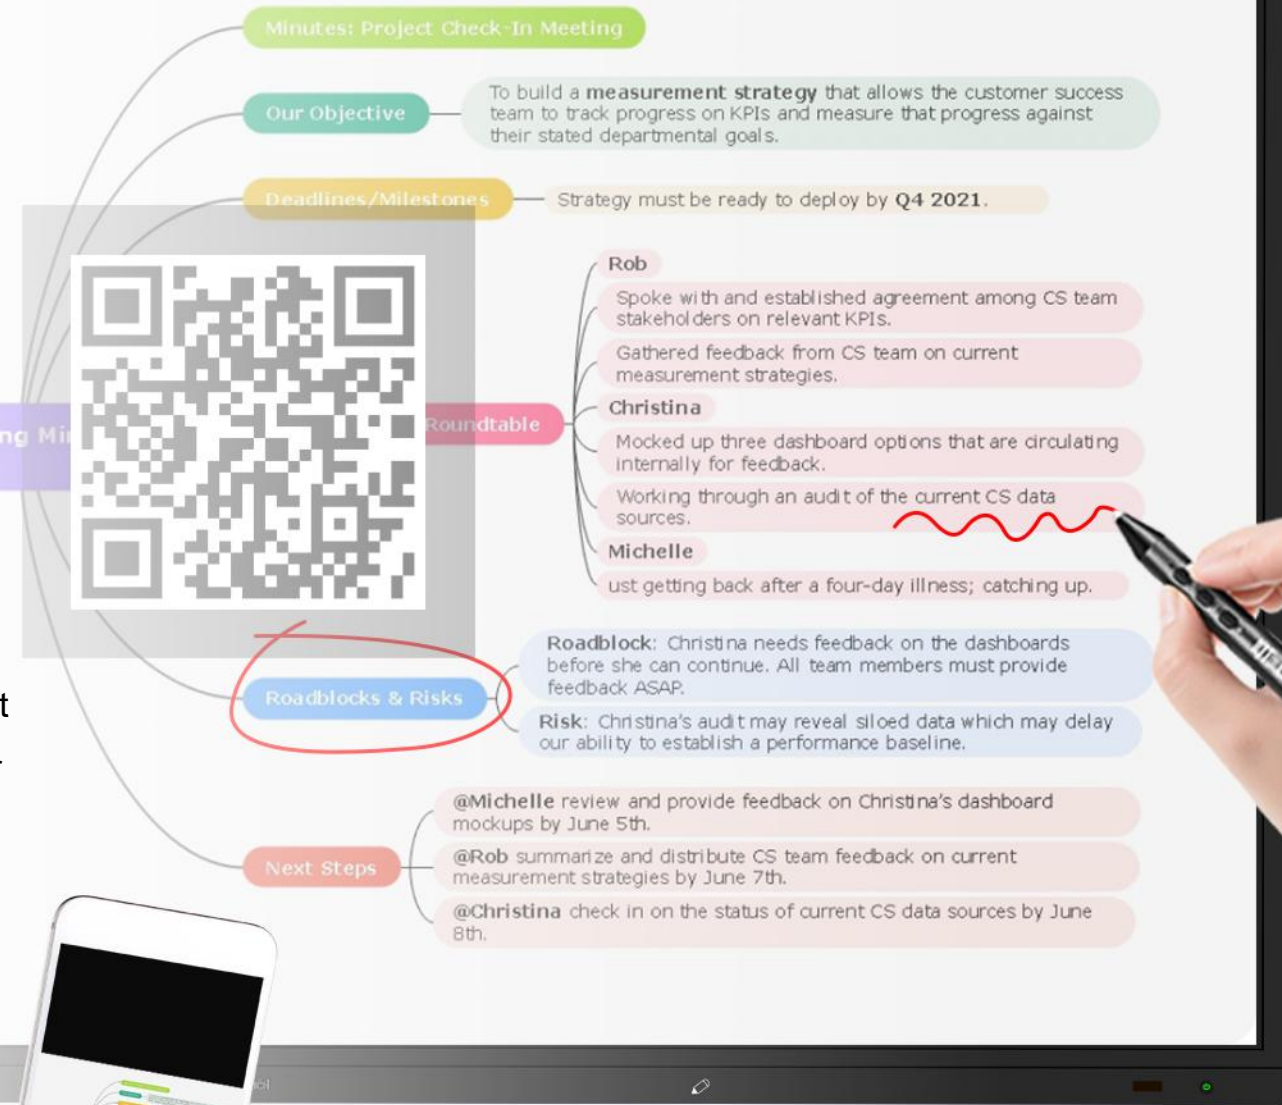

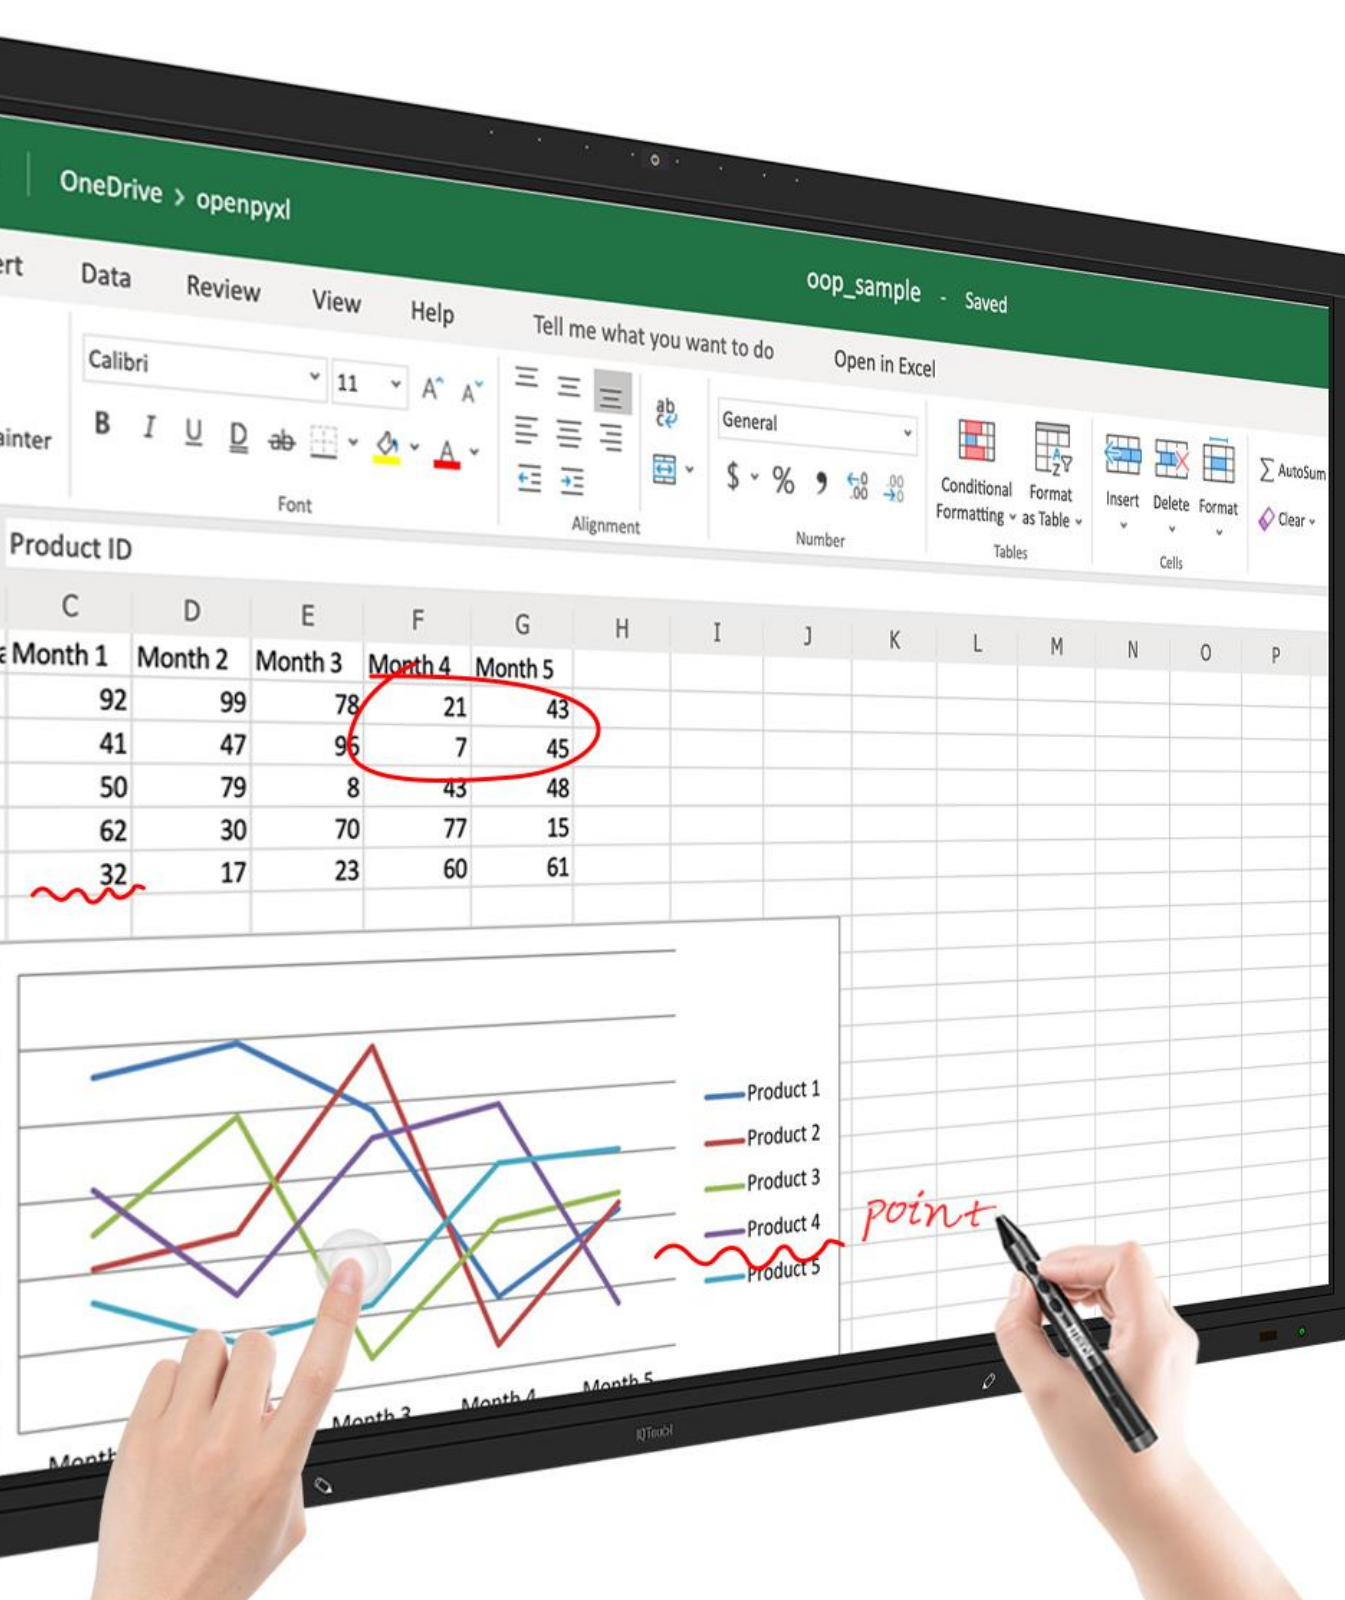

HDMI OUT for Extended Screen

Dual screen solution enables simultaneously delivering the 4K@60fps image and sound from the interactive display to the extended screen. It is ideal for the larger space of the classroom or conference room to maximize the visibility.

Continuous Annotation on Any Source

Switch freely among different input sources while making direct annotations and save the multi-source annotation pages under Android. Scan the QR code to easily share meeting records.

Infrared Ultra Fine Touch Screen

Zero+ Bonding / Infrared Ultra Fine Tech / Windows Ink

TB1100 Pro is designed with fully upgraded zero+ bonding and Infrared Ultra Fine (IUF) technology that empowers the screen high-level image quality, interactive view, instant response and high precision, revitalizing more vivid visual experience and natural writing. With the collaborative Windows Ink that supports writing on MS Office documents, saving annotations in files and share, you will never lose a thought.
