II. List Of Parts

NO.	Name	QTY	Exterior	Note
1	Main bracket	1		
2	TV hooks	2		
3	M10×90 expansion bolt	8		
4	M8×16 hex nut	4		For Installs TV
5	φ8 washer	4		For Installs TV

III. Installation Sequence and Component Structure

Drawing

1. Determine the installation position of the support, such as installation on the wall, to ensure that the wall has sufficient strength. Drill the hole after drawing the drilling hole position at + in the figure, and the electric drill bit is $\Phi 14$. The drilling depth is slightly deeper than the length of the expansion pipe. After drilling, knock in the expansion bolt. Fix the bracket on the wall and ensure that the bolts are tightened.

2. Install the two hooks on the mounting hole on the back of the TV, and then hang them on the wall hanging plate.

IV.adjustment method

Use the remote control to control the lifting of the bracket

V. Product parameters

Overall dimension (l × W× H)	1080×1130×180mm
Package size(l × W× H)	1100×1170×170mm
Net weight	30KG
Applicable LCD size	Below 86 inches
