Notes:

Different system/software support different key functions. For IQ OS & IQ KitsMemos & IQ JoinMemos & IQ ClassOne, please refer to related system or software user manual.

Operation Steps:

1. Install IQ SmartPen Driver for Windows in the CD or Download from the website:
<https://www.iqboard.net/iq-smartpen.php>
2. Plug the USB receiver into the USB port.
3. Press the smart pen button to use.

Operation Tips:

1. The reception distance of the receiver will be reduced by the interference of the surrounding electronic devices.
2. The machine automatically enters the power-saving mode when there is no operation. Do not need to shut down the machine during normal use.
3. Work instructions: the green light lights up when the button is pressed.
4. When charging, the red light is on, and when charging is completed, the green light is on.

Pairing Tips:

1. Press and hold Key1 and Key3 of IQ SmartPen at the same time, then plug the USB receiver into the USB port of Windows.
2. If the screen displays that the mouse moves up and down quickly and then remains stationary for 5 seconds, the USB receiver enters public mode.
3. Unplug the USB receiver, press and hold Key1 and Key4 of IQ SmartPen at the same time, and then plug the USB receiver into the USB port of Windows again.
4. If the screen displays that the mouse moves up and down quickly and then remains stationary for 5 seconds, the USB receiver and the pen body are successfully paired one-to-one.

*IQ SmartPen & receiver are paired by default at the factory.

Warranty Policy

Thanks for using IQ product. To obtain better warranty service, please carefully read the following clauses and keep this warranty card properly.

You should provide this warranty card for each warranty claim.

Duration of Warranty

1. We provide one-year warranty for IQ SmartPen. Please see the warranty documents and sales contract for details.
2. We do not replace or refund any sold product except for quality problem.

Disclaimers

- This warranty does not cover the following cases:
1. Man-made surface corruption, break, distortion, or damages due to improper installation, operation, and maintenance.
 2. Connecting port is distorted or cracked.
 3. Warranty period is expired.
 4. Product repaired by unauthorized service provider or personnel, or disassembled by users themselves.
 5. The original label or bar code has been removed, damaged or modified.

Software upgrade

We provide free lifetime upgrade service for software applied on the IQ product you buy. But we charge for upgrade service for different hardware and accessory function modules. Returnstar Interactive Technology Group Co., Ltd. reserves the final interpretation and modification rights of this warranty.
